ABOUT RED MARK

Crafting Surfaces Since 2006

OUR STORY

Red Mark Surface Coatings was founded in 2006 by Rakesh Kumar, inspired by years of experience gained while working with a Japanese paint company. This foundation provided deep knowledge of materials, finishes, and application techniques, leading to the vision of creating an independent brand dedicated to textured surfaces and specialized coatings.

What began as a small initiative has evolved into a trusted name in mineral finishes, decorative textures, and architectural surface solutions for residential, commercial, and industrial spaces.

MATERIAL & CRAFT

At Red Mark, we develop innovative mineral finishes, textures, and coating systems designed to enhance both interior and exterior environments. Every product is crafted with attention to material depth, durability, and timeless aesthetics.

Our commitment to quality, consistency, and continuous improvement ensures reliable performance across projects of every scale.

BUILT FOR REAL SPACES

Over the years, we have built lasting relationships with architects, interior designers, builders, and homeowners who seek surfaces that are both durable and visually distinctive.

From private residences to large commercial developments, Red Mark continues to explore new materials, textures, and techniques—creating surfaces that stand the test of time.
